

## Team UltrOZ Riders Help U.S. to 3 Nations' Cup Wins in Europe

Trumbull, CT--August 7, 2014--Riders using the UltrOZ Elite low intensity therapeutic ultrasound system helped the U.S. to three Nations' Cup wins at top international competitions in Europe this past week.

At the Hickstead CSIO5\* in England, the U.S. Team dominated and clinched the Furusiyya FEI Nations Cup™ of Great Britain competition on Friday, August 1, at the All England Jumping Course. The team comprised two Team UltrOZ riders - McLain Ward on *Rothchild* and Margie Engle on *Royce* - as well as Reed Kessler on *Cylana* and Beezie Madden on *Cortes C*. They led the competition from the start, and finished with a total of only four faults to clinch the win over The Netherlands and Germany, who took second and third places respectively.

*Team UltrOZ riders McLain Ward and Margie Engle (both on right) celebrate with their teammates and Chef d'Equipe Robert Ridland after winning the Nations' Cup at CSIO Hickstead.*

The following day, another U.S. team won the Nations' Cup at CSIO5\* Gijon in Spain, earning the U.S. back-to-back wins. Team UltrOZ rider Quentin Judge was a key part of that win riding Double H Farm's 12-year-old, Belgian Warmblood, stallion *HH Copin Van De Broy*. In both rounds the pair produced consistent efforts, with two four-fault trips. Judge also had a big individual win at Gijon, winning the first big class of the show with *HH Copin van de Broy*.

Days later Team UltrOZ rider Charlie Jayne offered double clear rounds in the Nations' Cup at CSIO5\* Dublin where he helped lead the U.S. to victory and the Aga Khan Trophy. Riding his 11-year-old stallion, Chill RZ, Jayne teamed with Beezie Madden, Jessica Springsteen and Katie Dinan to give the U.S. its third Nations' Cup win in seven days!

"We are thrilled with the winning results of Team UltrOZ," said Brian Collins, UltrOZ Division Manager. "We are proud to support so many talented riders, and help keep their equine athletes performing at the top of their game. We take great pride that riders like McLain, Margie, Charlie and Quentin, who use the UltrOZ Elite ultrasound system, are winning at the sport's highest level."

UltrOZ Elite is the *only* wearable therapeutic ultrasound system for the maintenance and rehabilitation of equine athletes. UltrOZ Elite represents the next generation in safe and convenient ultrasound therapy that owners and riders can apply *themselves*, taking clinical therapy out of the doctor's office and into the barn.

Ultrasound therapy has been used by veterinarians for decades, and by changing the way ultrasound is delivered, UltrOZ has eliminated the risk of thermal damage and created a safe and easy tool that promotes healing in tendon and ligament injuries; splints; muscles strain and tear; fracture and bone chip repair; minor strains, bumps, bruises, and inflammation. UltrOZ Elite also provides pain relief and can be used on a daily basis for maintenance.

UltrOZ Elite has been field tested by veterinarians and equine therapists, and is now being used extensively on the elite horse show circuits, racetracks, and training facilities to help keep equine athletes at the top of their game. World-class riders like McLain Ward (show jumping), Steffen Peters (dressage) and Tim McQuay (reining) are among those whose horses have benefited from UltrOZ Elite.

Further information about UltrOz is available on line at [www.UltrOZ.com](http://www.UltrOZ.com).
